## Preface

The **2009 Missouri Market Share Report** contains the 35 insurance carriers and groups with the largest Missouri written premium volume for five insurance lines: property & casualty, life, annuity, health, health maintenance organizations and dental. In addition, each company's premium growth and loss experience is indicated where applicable.

The report represents all licensed insurance companies for calendar 2009 writing direct business in the State of Missouri. The prepaid dental (PPD) organizations' and health maintenance organizations' (HMO) premium volume are included, but these premiums are not included in the 'Total All Lines'.

This report provides information on the market concentration and loss experience of the lines of insurance as reported in the annual statement. The experience for burglary, theft and aggregate write-ins for other lines were combined with the fire & allied lines experience; the experience for excess workers' compensation and warranty were combined with other liability; the experience for mobile home was combined with homeowners.

Except for earthquake insurance, this report was compiled using the National Association of Insurance Commissioners (NAIC) State Data Network, which relies on insurance companies annual statements to the NAIC and Missouri Department of Insurance. The earthquake results are based on the information reported on the Missouri Supplement to the annual statement.

The department makes every possible effort to make sure these data are accurate; however, the accuracy of this report depends largely upon the accuracy of the data filed by the insurers.

The Statistics Section, Division of Market Regulation, Missouri Department of Insurance, Financial Institutions and Professional Registration publish the **2009 Missouri Market Share Report**.
